

Welcome to the
Peterborough Geological and Palaeontological Group

Flag Fen Archaeology Park

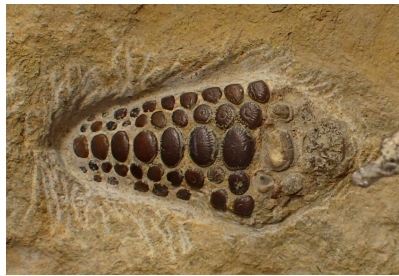

Saturday 20th November 2021 - 10am - 4pm

The Droveaway, Northey Road, Peterborough PE6 7QJ

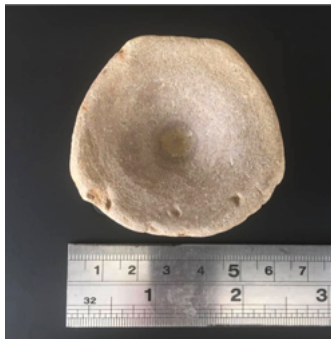

Meet our members, see some of the fossils we have collected over the years and the stories of ancient life they tell.

There will be brief talks during the day about the many different interests of group members.

Bring along your own fossil finds. We may be able to tell you what they are and the insight they give into the history of life on earth.

See how we look after the fossils we find to clean and preserve them

Learn about the methods we use when collecting important fossils to enhance their scientific value.

Find out how the scientific investigation of fossils is carried out, and the meticulous detective work which unlocks the history and ecology of the world they lived in.

A founding principle of our group is a commitment to ethical collecting. This means that we will keep careful records of the discovery and excavation of important finds and donate them to accredited museums where they will be put on display and studied.

Our motto is

"Nos Fodere Enim Scientia"

"We dig for science"

Come along and learn what we mean by that

Everybody is welcome

Entry to the event is free, but normal charges apply for Flag Fen
